

Promoting Positive Behaviours Around Campus

Presenter: Dr Anna James

The aim of this course is to provide participants, both tutors and support staff, with strategies to minimise inappropriate behaviours around the college campus from rudeness to swearing. Participants will also be shown that strategies that look to promote the positives in students' behaviour can be far more successful. The course considers not only practical methods but also how participants' own behaviour can have a significant impact on their success in dealing with a difficult situation.

Part 1

9.30-10.45

- Welcome
- Group introductions
- Understanding why students display challenging behaviours:
 - ✓ Individual and organisational reasons for challenging behaviours
